Dear Eric, Faith, Wendy, Caitlin, Amber, Brittany, Amy and Lucy,

Thank you very much for sharing the DVD of the LEGO Mountaineers' FLL experience with FIRST LEGO League and FIRST. It was exciting for us to see an all girls' team, and how well all of you worked together.

When we watched the DVD, it was during my first weeks working here at FIRST. Seeing what you and all of our teams go through during the course of the FLL season taught me how special FLL is, and how special your team is. Parts of the video were also very funny, so thank you for making me laugh. I've never been to LEGOLAND, so it was fun to see that as well.

Just this afternoon, another coach referred some teams in Hawaii to your LEGO Mountaineers Website. I was also very impressed with all of the work you did on the Website, and all of the terrific information that you posted. I know we will be referring new teams to your Website to inspire them to achieve the way that you all have.

Thank you for sharing your story, for inspiring other FLL teams, and for demonstrating the very best of FLL values to all of us.

Please pass along this message to your former teammates. Be sure to keep us posted on your continued achievements!

Warm regards,

Nancy M. Paul
